### **TRAFFIC SIGNAL IMPROVEMENT AT STATE HIGHWAY 9 AND BERRY ROAD**

Traffic signal repairs will take place this week at State Highway 9/Berry Road intersection. The City's contractor, Traffic and Lighting Systems, will conduct the repairs. Repairs involve the replacement of a traffic signal pole located in the northwest corner of the intersection. The pole in question was damaged during a single vehicle traffic collision earlier this month. Due to the nature of the work, lanes closures may be necessary on the westbound lanes of State Highway 9. Traffic control will be provided to guide motorists safely through the work zone. This work will take place on Wednesday, February 25, 2015, weather permitting. After 9:00 a.m. on February 25<sup>th</sup>, the intersection may be temporarily controlled by an all-way STOP sign. Full signal operation should be restored at the intersection by no later than 2:00 p.m. on the same day. Any questions about the project can be directed to Mr. David Riesland, City Traffic Engineer, at 405-329-0528 or [David.Riesland@NormanOK.gov](mailto:David.Riesland@NormanOK.gov).
